### **EXAMINER'S AMENDMENT**

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In claim 49, last line, "reaction" has been changed to "refractive"; and

In claim 55, first line, "grade-index" has been changed to "graded-index".

These minor changes merely correct spelling errors and do not require consultation with applicant or applicant's representative (MPEP § 1302.04).

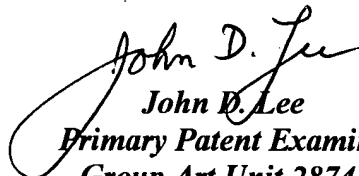

### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an Examiner's Statement of Reasons for Allowance: After careful review of the prior art documents relied on as the basis for rejection in the prior Office action, the Examiner agrees that these references (particularly Miller, the closest prior art of record) do not disclose or suggest the method which is being claimed in the present application. As pointed out by applicant in the response, Miller discloses a method of producing a plurality of individual optical fibers, not a solidified (i.e. solidly connected)  $m \times N$  sheet of optical fibers. The Miller reference would not suggest to anyone skilled in the art the method set forth in applicant's claims. Further search by the Examiner has uncovered no additional relevant prior art. Claims 1-20 and 46-55 herein are therefore allowed.

Art Unit: 2874

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
